

Are you the parent of a young child with a disability?

Ever wonder what kinds of technology exist that can help your child overcome barriers and live a more independent life?

Do you have questions about assistive technology?

Come join us in person or via zoom to hear all about assistive technology with Ashley Patete from Lehigh Valley Center for Independent Living. Ashley works with TechOWL and PATF (Pennsylvania Assistive Technology Foundation) to bring you the most up to date information about assistive technology. Explore TechOWL's Lending Library, Used Equipment Exchange Program, and many more resources for your child!

If you have questions about how to pay for these amazing technologies, no worries! Ashley will be discussing different funding options and assistance, focusing on how PATF can help.

We will be discussing technologies for your child that are available through TechOWL's programs like the Lending Library and Used Equipment Exchange Program which are great resources to test out equipment before committing to any type of purchase which is a fantastic option for young children. Let us connect you to the resources you need! We look forward to seeing all of you on Thursday March 28th from 11:00 AM-12:30 PM. To sign up, please RVSP by emailing us at communityinclusion@lvcil.org, and include whether you will be joining us in person or online. If you are joining us online, a link to the Zoom will be sent out shortly. Thank you!

Parent Support Group

In Person and Virtual Meeting
on Thursday March 28th from 11:00 AM to 12:30 PM
